

Deputy Chief Innovation Officer

The City of Baltimore Mayor's Office of Information Technology (MOIT) is seeking a highly qualified, results-oriented professional to serve as a Deputy Chief Innovation Officer of the Mayor's Office of Information Technology.

The Deputy Chief Innovation Officer:

- Direct manager of the Innovative Solutions Team for MOIT; Lead citywide innovation initiatives aligned with both the short and long term strategic direction of the business and cross-functional projects and teams, ensuring successful project evaluations and implementations;
- Showcase best practice innovation principles and tools in order to enable innovative capabilities across all segments of business operations;
- Develop new and appropriate innovation content and innovative capability where necessary;
- Leverage and improve innovation management through the continuous embedding and improvement of the system. This includes both pipeline health and timely execution;
- Innovation process owner, innovation process champion, leverages a disciplined innovation process focus on principles, tools and behaviors throughout the organization;
- Working collaborative with program colleagues to implement strategic program objectives;

Desirable Knowledges, Skills and Abilities

- A strong technical background with a Bachelor's degree in Business Administration, Management Information Systems, etc. required; post-graduate degree in business, computer science, or engineering; MBA preferred in a field relevant to MOIT's innovation programs and entrepreneurial support initiatives is required;
- The ideal candidate will bring at least 8-10 years of experience in building relationships and delivering programmatic value to the City of Baltimore, advanced-technology industries, entrepreneurial communities and government stakeholders, software implementation life cycle experience, complementing a background in managing complex and high-profile technology initiatives.
- Knowledge of the principles and practices of public administration and management.
- Develops a vision for innovative IT initiatives and leads transformative emerging technology initiatives.

Salary is commensurate with education and experience, with an excellent benefit package. Interested candidates should submit a cover letter and resume, which specifically addresses the applicant's experience to:
